

The Revolution Against Evolution

Genesis 1:1

Introduction

- The Bible plainly states that behind the entire creative order is God's divine hand. No natural forces exist on their own. Nothing receives its nature or existence from any other source. If that is true, then God's word is not only the source of the laws of physical nature which we study with science. It is the source of the laws of human nature, which tell us how we ought to live.
- I want you to know up front there is no way in one message that I can either disprove evolution or prove creation. In fact, neither one can definitively be proved or disproved. You can never prove or disprove any event that took place in the past. All you can do is present the evidence which is exactly what I intend to do tonight and then let you decide. We are going to ask and answer six very simple, but key questions that will totally help us put our arms around this great debate and understand the "Revolution Against Evolution".

Conclusion

- You are not just a chance collection of atoms and molecules that just happened to come together by fate or chance. You were born on this earth physically, that you might be born again spiritually, so that through faith in Jesus Christ, you can serve, know, love and live forever with the God that created you. That is why there is a "Revolution Against Evolution" and that really is the end of the debate.
